Issue 3

Across Health. What's New?

At Across Health, things have been fast moving since the start. Over the summer period, we extended the number of consultants from 12 to 24, strengthening our key growing Dutch offices (Michael Hulsebosch), our consumer healthcare business (Digital Health Dutch), our pharmaceutical business (Across Health Pharma) and our Belgian office (Across Health Belgium), and welcomed Catherine Mouse, Corina Ludtke and Jan Kees Buenen to the front of connected healthcare, + data lense and recently launched our new website. Have a look at www.across-health.com and let us know what you think.

After a strong start of our commercial success operations in the US and Netherlands, we are currently also successfully expanding new operating units in other key countries such as Germany. The number of international offices will be increased to 5 by the end of 2010 through local implementation partners.

In this newsletter, you will find an usual combination of key trends, and insights into some of our recent projects.

Best regards,

Fanny Schenck
Managing Director
Across Health

Connected healthcare - One of the key drivers for change in the healthcare industry, which runs into quite a number of issues, is the lack of high-quality medical information for consumers. Consumers are looking for more and more information to reach better patients. Read more...

Buzz monitoring and Healthcare - by more and more people are looking to social media for health information. Many of them are keen to share experiences and recommend many products and services. Read more...

Closed-loop marketing through structured data capture of customer attributes and objectives - a key success factor in customer centric marketing - Across Health Pharma introduces an approach for "new" services to pharmaceutical companies as launching "new" services is becoming more and more important. Read more...

Going Mobile - Mobile communications is becoming an important channel for healthcare. Across Health has been working on a number of projects in this area. The reason for this is in the major acceleration in the last few years of full-blown, user-friendly mobile communications. Read more...

Across Health's Marketing Mix Assessment - In comparison to the more standard product-centric approach using traditional (mainly print) communications, Across Health has developed a new approach for pharma business leaders from across stakeholders. Read more...

Chart of the month - Where are your customers? And where is your budget? - This chart compares where the expatriates are with their budget. Importantly, it does not take into account the quantitative data. Read more...

What Would Google Do? (Jeff Jarvis) - A must-read text there is text, as well as Jarvis's blog, which has quite a number of followers. Read more...
